

## WHY CRITICAL START?

- Live discovery of Internet accessible assets that may contain sensitive data or can be used by attackers as pivot points to internal systems
- Continuous visibility of assets to create incidents when remotely exploitable vulnerabilities are discovered
- Monitoring of Cloud Infrastructure (Amazon AWS and Microsoft Azure) against best practice
- Monitored 24X7 by Critical Start CyberSOC
- Features patent pending Event Orchestration platform
- Use the Mobile SOC™ app on your iOS or Android device to receive notifications and investigate alerts
- Meet PCI DSS 11.2.2. obligations with a subscription to our ASV certified Tenable.io solution

## Continuous Cyber Exposure Monitoring

### 24x7 Monitoring of Internet Assets and Cloud Infrastructure

Cyber Exposure monitoring provides live visibility using technology specifically designed for security.

Backed by the highly trained Critical Start SOC team, this service builds on the roots of Vulnerability Management for traditional IT applications and systems to deliver continuous visibility of external and cloud assets that are monitored 24x7.

### SERVICE DESCRIPTION

- Detects new Internet accessible external hosts, new services, and disallowed services based on a 60-minute discovery schedule. If any new Internet discoverable hosts are detected, the Critical Start CyberSOC will open an incident and escalate to the impacted organization.
- Detects known critical and high vulnerabilities based upon vulnerability management scans performed daily. If any critical or high vulnerabilities are

detected, the Critical Start CyberSOC will open an incident and escalate to the impacted organization.

### ANNUAL COST

- Pricing is \$30,000 annually for < 50 assets and includes a Tenable.io subscription, 24X7 Critical Start CyberSOC monitoring, Incident Response Platform, and iOS/Android Mobile SOC application.
- Pricing is an additional \$10,000 annually to include daily monitoring of Amazon AWS OR Microsoft Azure against best practice audits.
- One-time remote implementation fee of \$2,500.

### START NOW

Ready to strengthen your security posture with 24x7 visibility of your external and cloud assets? Call

**877 684-2077** or email us at [info@criticalstart.com](mailto:info@criticalstart.com).

Live discovery of every modern asset that is Internet accessible

Continuous visibility into whether an asset is secure or exposed, and to what extent

Add context to the exposure to prioritize and select required remediation

Accurately represent and communicate cyber risk to the business
