CRITICALSTART®
They're good. We're better.

TOP 5 THREAT PREDICTIONS FOR 2023

1
Ransomware
Ransomware will continue, with critical infrastructure organizations as a target.

2
Increase in Ransomware
We'll see an increase in ransomware that exfiltrates data before destroying it, forcing organizations to pay a ransom to get their data back - not just unencrypt it.

3
Extortion
Extortion will be on the rise, with many attackers deciding to skip the encryption and go straight to the extortion.

4
Nation-State Sponsored Activity
Nation-state sponsored activity will continue with an onslaught of intellectual property theft from biomedical, manufacturing, and technology sectors.

5
Economic Uncertainty
Economic uncertainty may drive organizations to consider Managed Detection and Response (MDR) providers to maintain the security of their organization at a lower cost than an in-house team.

CRITICAL**START**® can help simplify breach prevention, stop business disruption, and keep your business thriving with 24x7x365 coverage.

>90%
