CRITICALSTART

AZURE SENTINEL & CRITICALSTART

Managed Detection and Response services from CRITICALSTART™ powered by Azure Sentinel™

An **MDR Platform** Built to Resolve Every Alert

Using the power of Azure Sentinel, CRITICALSTART enables customers to centralize, ingest, and correlate 100% of their logs to ensure their environment is secure. CRITICALSTART's MDR utilizes a Trusted Behavior Registry to investigate every alert generated until they are classified as known good and can be safely resolved. Customers see every action our CYBERSOC analysts take since our platform provides 100% transparency across the entire process.
